Telephone:

---

*A Medical Essential Service Customer is a residential customer whose electric service is medically essential, as affirmed through this certificate signed by a doctor of medicine licensed to practice in the State of Florida. Service is "medically essential" if the customer has continuously-operating, electric-powered, medically equipment necessary to sustain the life, or avoid serious medical complications requiring immediate hospitalization, of a customer or another permanent resident at the service address.*

#### **To be completed by physician:**

Explain briefly and clearly, in non-medical terms, why continuance of electric service is medically essential:

---
